WHAT'S NEW FOR INJINJI SPRING SUMMER 2024

At Injinji, we know the Spring Summer '24 season is a generative time for runners as they set intentions, recalibrate training schedules, and take on new races. We strive to provide styles that not only outperform other running socks in terms of blister prevention, moisture management, and total foot utilization—but also come in unique colorways that bring joy and inspiration with every lace-up. This season, the bestselling Run series is available in new colorways, and the No-Show designs come equipped with words of encouragement stitched into the cuff. New Ultra Run colorways are also available, to help athletes take on long-distance challenges. Finally, the Trainer Mini-Crew is available in a new colorway, ensuring a snug fit through dynamic gym workouts. Prepping for race season starts and ends with Injinji toesocks.

ULTRA RUN SERIES

The Ultra Run series features cushioned terry throughout the entire foot, including the toes, to help soften the impact feet sustain during a run or workout. Linear knit lines on the underside of the foot offer additional arch support and a tighter fit to help eliminate friction. Light compression throughout the sock plus strategically placed mesh throughout the foot and leg offer extra ventilation and breathability. The Ultra Run Crew features a ribbed knit, while the Women's Ultra Run Crew features mesh waves to keep the legs cool.

RUN SERIES

The Run series offers innovative, restriction-free movement and eliminates skin-on-skin friction, which is one of the primary causes of blisters. Engineered for optimal comfort, performance and protection, the five-toe sleeve design incorporates moisture-wicking COOLMAX® EcoMade fibers, targeted arch support, a breathable mesh top, and a streamlined fit, uniquely tailored to left and right feet. From training runs to race day, Injinji's Run socks will go the distance by keeping your feet protected in any shoe.

TRAIL SERIES

Injinji Trail socks are engineered for uneven and unpredictable terrain, allowing the entire foot to perform naturally. The seamless five-toe design prevents blisters by eliminating skin-on-skin friction while the double cuff on the Mini-Crew, and the ribbing on the Crew, provide a snug fit to keep dirt and debris out. This anatomically designed toesock will effectively wick away moisture from the foot and between the toes.

TRAINER SERIES

Designed for cross-training, strength, circuit and HIIT workouts, the Injinji Trainer Mini-Crew will help you meet (or exceed) all of your performance goals. Featuring a more precise and snug fit, the Trainer Mini-Crew hugs the contours of the foot to move in sync with you, allowing a greater feel for the ground so you can be centered and stable in all your movements. The Trainer Mini-Crew's technical ribbed knit provides enhanced support to the arch and ankle. This, paired with the five-toe design and Injinji's Original Weight thin cushioning, promotes natural, restriction-free movement and gives the perfect amount of cushion to handle burpees, box-jumps and everything in between.

Injinji's Liner socks are designed to be worn as the first line of defense against excess moisture and blisters, keeping feet dry and comfortable. The five-toe design forms to the contour of your foot, allowing for natural, restriction-free movement. With each toe separated, all skin-on-skin contact between the toes is eliminated, helping to prevent blisters. Wear the Liner socks as a baselayer under an outer sock for extra cushion, or wear them alone for lightweight protection during everyday adventures.

LINER + RUNNER SERIES

The Liner + Runner is a unique, two-sock system designed to provide ample blister protection, moisture management and total foot utilization while increasing cushion on the sole. The ultra-thin Liner is the front line of protection against blisters with its five-toe design. The Runner is worn over the Liner to increase comfort and cushion with a terry midweight knit throughout the bottom of the foot. Meanwhile, the Mini-Crew height provides a secure barrier around the ankle to prevent dirt, sand and other elements from getting into the sock, enabling more running with less distractions. The Liner + Runner is only sold as a two-sock set.

LINER + HIKER SERIES

The Liner + Hiker is the perfect sock set for every hiking adventure. The Liner is an ultra-thin, lightweight baselayer designed to wick away sweat from your foot, keeping it dry and comfortable. Since the toes are separated, skin-on-skin friction is eliminated, helping to prevent blisters. The Hiker is worn over the Liner for increased cushion and protection. Made with Wool, the Hiker mirrors the shape of your toes, providing more room and reducing bunching. The bottom of the Hiker and the top of the toe box feature an additional terry loop for maximum padding to keep your feet comfortable. The Liner + Hiker is only sold as a two-sock set, the Hiker cannot be ordered separately.

Combining the classic Injinji five-toe design benefits with performance-enhancing Merino wool, the Outdoor Series provides comfort and optimum protection during every adventure. Unlock the potential of Merino wool during high-stress activities like running and hiking as it repels dirt and water, resists odor, wicks moisture and blocks UV rays. These soft, comfortable socks are cool in the heat and warm in the cold, providing extra ventilation from the breathable knit mesh located at the top of the foot.

SOCK WEIGHTS

LW

LIGHTWEIGHT

Injinji's thinnest sock provides ultra-thin cushioning, allowing extra breathability and a light feel in any shoe. All Lightweight socks are made with a 200 needle-count (with the exception of Women's Run Lightweight).

OW

ORIGINAL WEIGHT

With the thickness of a traditional sock, Original Weight provides a moderate cushion, ideal for a wide range of activities.

MW

MIDWEIGHT

Designed for maximum protection, the Midweight sock features a padded heel and metatarsal for durability and protection.

MW+

MIDWEIGHT WITH PADDED TOES

With the same thickness as a Midweight sock, the Padded Toes weight offers terry cushioning in the toes and toebox for additional protection and comfort.

FIBER TECHNOLOGY

COOLMAX® EcoMade

Made from 100% post-consumer recycled polyester, the COOLMAX® EcoMade fiber helps keep you cool and dry. The abrasion resistant fiber boosts durability and lasts after repeated wear and washing.

Süedwolle Group

From sheep to socks, Merino Wool from Süedwolle Group is certified mulesing-free and eco-friendly premium Merino wool fiber. The natural fiber of Merino wool is renewable and biodegradable, adding another level of performance by resisting odor, wicking moisture and blocking UV rays.

LYCRA®

The addition of this fiber provides stretch and recovery features for long-lasting comfort and a superior fit.

Injinji, innovator of the Original Performance Toesock, is a company dedicated to the health and performance of feet since 1999. By redesigning the basic structure and shape of a traditional sock, toesocks help to enhance the function and freedom of the foot while inside any shoe. The five-toe interface provides total foot utilization, helping to properly align and splay the toes which allows the entire foot to be engaged in any athletic activity. With each toe wrapped in sweat-wicking material, skin-on-skin friction is eliminated, helping to protect against blisters and hotspots. Injinji strives to make the journey of life more comfortable and truly believes that whatever the athletic endeavor, there is a toesock to enhance the experience.

MANIFESTOE

...Forever committed to innovation that allows your feet to live and perform at their peak.
We are...a better way.
