# WHO WE ARE

In the early days, Lock Laces® found their home on the shoes of triathletes looking to shave seconds off of their transition times and frustrated runners whose interruptions were caused by untied laces.

As the word spread about this cool elastic no tie lacing system, we quickly found that our product could benefit people in more ways than we could have ever imagined. Every day we love hearing how our shoelaces can help foster independence in individuals with fine motor skill impairments or keep busy moms on the go.

That's why we've made it our mission to keep improving the quality of life for our customers by offering the highest quality lacing solution on the market.
